

Children's Online Privacy Statement (Supplement to Great Erie FCU's Privacy Policy)

Great Erie Federal Credit Union is committed to safeguarding information about our members and visitors to our web site. This includes information that we may receive from children. This Online Children's Privacy Statement explains our collection, use and security of personal information received from a child, as it required and relating to The Children's Online Privacy Protection Act (COPPA). This Act was passed to give parents/guardians increased control over what information is collected from children online and how such information is used. The law applies to websites and services directed to, and which knowingly collect information from, children under the age of 13.

Personal information

We collect non-personally identifying information from our web site through the use of cookies & tracking features. We use session variables to monitor site usage. This provides us with information to determine how best to maintain our site. The only information Great Erie FCU receives online from children is email they have sent to us. Information we receive from a child could include their name, address, age and phone number. We may use the personal information to sign your child up for a kid's club event, kid's club newsletter, or for birthday card mailings. We do not require a child to disclose more information than is reasonably necessary to participate in contests, games or other activities, or as a condition of participation. We do not provide any personal information from children to third parties or our affiliates. Personal information about children using our site is available only to those who work on the site or who provide technical or other fulfillment support services to the site.

Third Party sites

It is our practice to link only to the sites of well-known, reputable companies. We do not control these companies' tracking technologies or how they might be used. Note that this document covers only our use of cookies and does not describe the use of cookies by any third party.
